

## STATII DE ASFALT COMERCIALIZATE LA NIVEL MONDIAL

Statiile de productie a asfaltului Titan sunt in productie de 17 ani, operand initial in Marea Britanie si Irlanda, largindu-si reputatiile din Europa prin Scandinavia catre Africa si jumatatea estica, pana in estul indepartat si Australia. In total sunt peste 220 fabrici de producere a asfaltului operationale in toata lumea, numai in China fiind functionale 86.

Au fost multe proiecte prestigioase contractate de catre fabricile Titan, incluzand Aeroportul Chek Lap Kok din Hong Kong, Aeroportul Kuala Lumpur in Malaesia, Aeroportul Sydney din Australia, Aeroporturile Guangzhou si Xiamen – China, Aeroportul Nairobi – Kenya, Aerodromurile militare – Marea Britanie, noua magistrala de drum “M6” - Marea Britanie, Autostrada Naujing- Shanghai in China, asta doar pentru a puncta cateva. Acolo unde calitatea asfaltului este impusa Titan face performanta.
